Dear Parents / Carers,

### **Changes to Online Learning: Week Beginning Monday 11<sup>th</sup> January**

Every day, each teacher will upload a video introduction for the day, explaining the activities set and sharing other relevant information. This will be visible under the 'stream' element of the classroom. When your child has watched the video, they must respond with a 👍 in the stream. This will allow us to carry out a 'virtual registration', and identify those who may be having difficulties accessing online learning.

We will also be uploading 3 video lessons each week, for work that benefits from the additional instruction. The video lessons are not live so that they can be watched at any time throughout the day, reducing pressure on families who have other commitments. Please be aware that these may be presented by teachers from other classes in the same phase. We will regularly review policy and procedures for online learning.

When you've completed work, don't forget to 'submit/turn in/hand in/share' your work (the term depends on the device you are using). However, remember that this is not necessary for all pieces of work. In addition, if you do not have a printer, it is fine to complete your work on paper.

**Online learning is an essential part of your child's education and must be accessed and completed.**

**If you have any difficulties accessing google classroom, please contact the school.**

Yours faithfully,

**S. Lewis  
Headteacher**
